FISCAL IMPACT STATEMENT

LS 7032

BILL NUMBER: HB 1218

NOTE PREPARED: Apr 10, 2003

BILL AMENDED: Apr 3, 2003

SUBJECT: Department of Fire and Building Services.

FIRST AUTHOR: Rep. Grubb

FIRST SPONSOR: Sen. Alting

BILL STATUS: As Passed - Senate

FUNDS AFFECTED: ☒ **GENERAL**
☒ **DEDICATED**
FEDERAL

IMPACT: State & Local

Summary of Legislation: (Amended) This bill has the following provisions:

(A) It allows the Boiler and Pressure Vessel Rules Board to adopt national boiler and pressure vessel codes by emergency rule.

(B) It exempts temporary maintenance and repair structures from the building laws. It allows the agencies and board enforcing the fire safety, building, and equipment laws to impose a civil penalty not to exceed \$250.

(C) It establishes certification requirements for the chief inspector and supervisor of regulated amusement device inspectors. It makes the following changes with regard to the Regulated Amusement Device Safety Board: (1) allows the Board to grant a variance to the Board's rules; and (2) makes changes concerning the terms of the Board members. It also specifies that the liability limits for an insurance policy required for a regulated amusement device operating permit do not apply to a permit applicant subject to the Tort Claims Act. (D) It increases the surety bond requirement for an inspection agency from \$5,000 to \$100,000.

(E) It requires an elevator contractor, elevator inspector, or elevator mechanic to be licensed after May 1, 2003.

(F) It requires the Boiler and Pressure Vessel Rules Board to adopt rules defining a regulated boiler and pressure vessel.

(G) It repeals a provision defining regulated boiler and pressure vessel.

(H) It makes other changes in the fire safety, building, and equipment laws.

(I) It repeals a provision that requires an elevator contractor, elevator inspector, or elevator mechanic to be licensed after April 30, 2003.

Effective Date: Upon Passage; July 1, 2003.

Explanation of State Expenditures: (Revised) *Administrative Rules and Fee Setting* - To the extent that the bill allows the Boiler and Pressure Vessel Rules Board to adopt rules and set fees, Board administration costs could increase, although this amount is expected to be minimal.

Licensing Elevator Contractors, Inspectors, and Mechanics: SEA 488-2002 required the Fire Prevention and Building Safety Commission and the Department of Fire and Building Services to establish a program to license elevator contractors, inspectors, and mechanics effective March 1, 2003. As amended, this bill clarifies the effective date.

Regulated Amusement Device Inspectors: This provision will have minimal fiscal impact as the inspectors currently employed are already required to acquire certification. The Regulated Amusement Device Safety Board would be required to meet quarterly, rather than biannually, thus administrative expenditures could also be affected.

Explanation of State Revenues: (Revised) *The Education Fund* - Under current law, \$5 of the design release fee is deposited in the Fire and Building Safety Education Fund to provide funds to local fire and building inspection departments to enroll in education and training programs approved by the DFBS. The bill would allow the Office of the State Building Commissioner and the Office of the State Fire Marshal to enroll in education and training programs, as well. Revenues and expenditures of the Fire and Building Safety Education Fund are shown below:

	Revenues	Expenditures
FY 1998	\$43,633	\$45,992
FY 1999	44,995	43,540
FY 2000	55,381	50,875
FY 2001	73,015	63,768
FY 2002	52,174	65,160

Civil Penalties - The bill allows the DFBS to impose a civil penalty of \$250 for each day a violation of an order to cease and correct a violation of the code occurs, and a \$1,000 civil penalty for each violation of 42 U.S.C. 5409. There are no data available to indicate how many civil penalties may be assessed or the period of days a violation may continue. Revenues from the civil penalties would be deposited in the Fire and Building Services Fund which provides for the expenditures of the DFBS.

Class C Infraction and Class A Misdemeanor - Under the bill, a Class C infraction for violation of 42 U.S.C. 5409 would be eliminated. The maximum judgment for a Class C infraction is \$500, which is deposited in the state General Fund, and court fees are \$70. Of the court fee, 70% is deposited in the state General Fund if the case is filed in a court of record, or 55% if the case is filed in a city or town court.

The bill also limits the fine to \$1,000 for a violation of 42 U.S.C. 5409 that threatens the health or safety of any purchaser. The maximum fine allowable under current law for a Class A misdemeanor is \$5,000, which is deposited into the Common School Fund.

Explanation of Local Expenditures:

Explanation of Local Revenues: (Revised) *Class C Infraction* - The elimination of a Class C infraction would reduce the revenue received by local governments from the following sources: (1) The county general fund would receive 27% of the \$70 court fee that is assessed in a court of record. Cities and towns maintaining a law enforcement agency that prosecutes at least 50% of its ordinance violations in a court of record may receive 3% of court fees. If the case is filed in a city or town court, 20% of the court fee would be deposited in the county general fund and 25% would be deposited in the city or town general fund. (2) A \$3 fee would be assessed and, if collected, would be deposited into the county law enforcement continuing education fund. (3) A \$2 jury fee is assessed and, if collected, would be deposited into the county user fee fund to supplement the compensation of jury members.

State Agencies Affected: Department of Fire and Building Services.

Local Agencies Affected: Trial courts, local law enforcement agencies.
